JOURNAL OF INFORMATION PROCESSING SYSTEMS

Volume 21, Number 4 (Serial Number 94), August 2025

JIPS

(Continued from outside front cover)

- Korean Sign Language Recognition Using LSTM and Video Datasets
Soo-Yeon Jeong, Ho-Yeon Jeong, and Sun-Young Ihm 427
- Construction of Formative Evaluation System in Business English Listening and Speaking Course Using Fuzzy Hierarchy Analysis Process
Huifang Shan, Junrui Han, and Zhanfang Li 439
- Adversarial Watermarking through the Integration of GAN and FGSM for Preventing Unauthorized AI Training
Ji-Hun Kim and YongTae Shin 449

- Applying Machine Learning to Explore the Impact Mechanisms of the Urban Built Environment's Characteristics on the Thermal Environment
Yansu Qi, Han Li, Xiuhe Yuan, Dongmiao Zhao, and Chao Liu 355
- *K*-Equidistant Partitioning: Enhancing Sensor Data Analysis Using Innovative Data Augmentation Techniques
JeongHyeon Park and Nammee Moon 371
- Research on Influencing Factors of Employment Anxiety of College Students through Model Analysis
Hehe Liu and Zhoutao Zhang 380
- Secure Storage of Network Data Information Based on Cloud Computing Data Encryption Techniques
Qiaoling Long 392
- Code Smells and Development Efficiency in Native and Cross-Platform Mobile Applications: A Study of Java, Kotlin, and Flutter
Ibrokhimov Sardorbek Rustam Ugli, Junseok Cheon, and Gyun Woo 401
- An Energy-Saving Hybrid-Optimization Scheduling Algorithm Based on Fat Tree in WSN
Cheng Li, Guoyin Zhang, and Honglie Zhang 413

Published on August 31, 2025

The Journal of Information Processing Systems is the official journal of Korea Information Processing Society. Abbreviated title is 'J Inf Process Syst'. It was launched in 2005. It is published bimonthly, on the last day of February, April, June, August, October and December of each year. Our Journal has been exclusively online since June 2024.

Aims and Scope

The JIPS is a peer-reviewed bimonthly journal that publishes high-quality papers after subjecting them to a rigorous review process. It publishes diverse papers, including theoretical research contributions presenting new techniques, concepts or analyses; experience reports; experiments involving the implementation and application of new theories; and tutorials on state-of-the-art technologies related to information processing systems. In addition, the journal's editorial board selects featured articles with outstanding contributions and results, and introduces them on the journal's homepage. The subjects covered by this journal include, but are not limited to, topics related to a) computer systems and theory; b) multimedia systems and graphics; c) communication systems and security; and d) software systems and applications. To be accepted, however, a paper must be judged to be truly outstanding in its field and to be of interest to a wide audience.

Subscription Information

Korea Information Processing Society (KIPS) will send the Journal of Information Processing Systems for free to individuals, libraries and educational institution worldwide. Full text PDF file are also available at the official website (<http://jips-k.org>).
