JOURNAL OF INFORMATION PROCESSING SYSTEMS

Volume 21, Number 6 (Serial Number 96), December 2025

JIPS

(Continued from outside front cover)

- Combined Query Based Image Retrieval Using Structure Elements Descriptor
Gunho Lee and Minjoong Jeong 638
- Attention-Based Relational Learning Model for Few-Shot Knowledge Graph Completion
Yuanxia Zhang, Hua Li, Yu Chen, and Daoqing Gong 651

- Clustered Federated Learning Based on Mahalanobis Distance for Sequential Medical Data
Tae Hwan Yoon and Bong Jun Choi 564
- Research on Risk Assessment of Internal Audit Information in Enterprises through Data Mining
Lu Xia and Tiantian Wang 575
- Triple-Cascade Prompt-Based Implicit Sentiment Analysis with Data Augmentation and Automated Feedback Correction
Yu Zhang, Xu Li, Shuxin Chen, and Jiaqi Wang 585
- Design and Development of a Summarization Service Prototype of Personal Health Record Medical Data with Fast Healthcare Interoperability Resources Structure Using Large Language Models
Nam-Gyu Lee and Seung-Hee Kim 598
- Base View Rate Control Algorithm Based on VVC for 3D Video Sequences
Tao Yan and Qian Zhang 613
- Automated Proofreading of Chinese Text Using Syntactic Analysis and Semantic Layering
Lili Zhu 624

Published on December 31, 2025

The Journal of Information Processing Systems is the official journal of Korea Information Processing Society. Abbreviated title is 'J Inf Process Syst'. It was launched in 2005. It is published bimonthly, on the last day of February, April, June, August, October and December of each year. Our Journal has been exclusively online since June 2024.

Aims and Scope

The JIPS is a peer-reviewed bimonthly journal that publishes high-quality papers after subjecting them to a rigorous review process. It publishes diverse papers, including theoretical research contributions presenting new techniques, concepts or analyses; experience reports; experiments involving the implementation and application of new theories; and tutorials on state-of-the-art technologies related to information processing systems. In addition, the journal's editorial board selects featured articles with outstanding contributions and results, and introduces them on the journal's homepage. The subjects covered by this journal include, but are not limited to, topics related to a) computer systems and theory; b) multimedia systems and graphics; c) communication systems and security; and d) software systems and applications. To be accepted, however, a paper must be judged to be truly outstanding in its field and to be of interest to a wide audience.

Subscription Information

Korea Information Processing Society (KIPS) will send the Journal of Information Processing Systems for free to individuals, libraries and educational institution worldwide. Full text PDF file are also available at the official website (<http://jips-k.org>).
