Seoul

11th IEEE WORKSHOP ON THE ELECTRONIC GRID

Seoul, Republic of Korea

November 9th-11th, 2026

The 11th IEEE Workshop on the Electronic Grid (eGRID 2026) will be held from November 9th-11th, 2026 in Seoul, Republic of Korea.

This international workshop, sponsored by the IEEE Power Electronics Society (PELS) and technically sponsored by the Korean Institute of Power Electronics, and organised by Seoul National University, Seoul, will provide an international forum for academics and industry to exchange information on their latest research ideas, developments, experiences, achievements, state-of-the-art technical trends, and applications. The workshop invites experts in power electronics and power systems to discuss the evolution of the electric system towards a more power electronics-based infrastructure.

The eGRID 2026 Workshop is a single-track format, inviting experts from industry, academia, and international labs to engage in keynote speeches, tutorials, and panels on the latest insights on theory, modelling, analysis, design and development, testing, and integration of power electronics-based power systems.

2026 track topics include:

- Power grid of the future
- Power electronics control, testing, and modelling
- Robust and resilient electrical grids

► CALL FOR PAPERS

Submitters of papers will have opportunities to present their work, orally (selected papers) or in poster format, and to interact with industrial experts on the challenges and solutions for the future energy systems.

Important Dates for Paper Submission

March 15, 2026 — Opening submission system

May 31, 2026 — Submission of extended digests

July 31, 2026 — Notification of acceptance

August 31, 2026 — Submission of final manuscript

► SPONSORSHIP OPPORTUNITIES

Sponsors of the 2026 IEEE eGRID Workshop can participate at one of three different levels of contribution, with benefits including:

- Workshop registrations
- Exhibit table for company promotion
- Logo on eGRID website
- Logo presence on-screen and throughout the Workshop
- On-stage presentation opportunity
