제4회 한국 인공지능 학술대회
The 4th Korea Artificial Intelligence Conference

Date September 20 (Wed) ~ September 23 (Sat), 2023

Venue Shilla Stay Jeju, Jeju City **[Online/Offline Hybrid Event]**

AI

Important Dates

Paper submission	September 1, 2023
Acceptance Notification	September 8, 2023
Final submission deadline	September 13, 2023

Call for Papers

The topics includes, but are not limited to:

- Machine Learning
- Data mining and search
- Bayesian machine learning
- Machine Learning Systems and Applications
- Control Systems and Robotics
- Recommendation Systems
- Computational Intelligence
- Signal Processing & Multimedia
- Neurotechnology & Applications
- Metaverse
- Computer Systems
- Healthcare

- Deep Learning
- Time Series Analysis
- Big data analytics
- Signal Processing & Multimedia
- Computational Theory
- AI IoT Platforms
- Probabilistic Inference
- Networks & IoT
- Natural Language Processing
- Digital Twins
- Semiconductor
- Autonomous Driving

- Computer Vision
- Deep Reinforcement Learning
- Neural Networks
- Networks & IoT
- Fuzzy and Intelligent Systems
- Data Analytics
- Machine Learning Systems and Applications
- Control Systems and Robotics
- Telecommunications
- Energy
- AI Bioengineering

Submission Guidelines

Information on submitting a paper, such as the paper form, is available at https://koreaai.org, and the process of submitting a paper, being notified of the review results, and submitting the final version is conducted through the paper submission and review system.

Paper submission site: https://www.manuscriptlink.com/conferences/2023koreaai

Papers will be one or two pages long, and after they are reviewed and accepted for publication, you will be required to submit a one- or two-page final version should be submitted.

The best papers (both oral and poster presentations) will be selected and awarded the "4th Korean AI Conference Best Paper Award" will be awarded.

KICS
The Korean Institute of Communications and Information Sciences
